

## CITIZENS PETITION STATE TO SEND AGENT TO INVESTIGATE DISPOSAL OF CITY'S GARBAGE

Committee Will Also Appear Before Council Next Meeting in Protest.

### CONDITIONS UNBEARABLE

Effort to Burn Refuse in Open at Old Plant Near Snydertown is Failure. It is Claimed; Health and Property Menaced; Radical Means Proposed.

A committee of Connellsville township citizens composed of persons from the vicinity of Snydertown will appear before council at its next meeting to protest against the burning of garbage in the open, along Connellsville road near the site of the old Snydertown plant. The citizens of that district declare they are ready to take the most drastic means to stop the dumping of garbage there, even to carrying the matter to the state authorities.

M. Derencin, who lives near the site of the garbage plant, declares that the insurance company through which he protects his property has threatened to cancel his policy and other persons in the same vicinity carrying insurance have received similar notices.

It is pointed out that in case of a storm, sparks from the burning rubbish might be carried to the buildings nearby and destroy them.

A petition has been sent to Harrisburg asking that a state health man be sent here to investigate conditions. It is feared that the dump will become the breeding place of cholera the coming hot summer months, just as it has been the stinking grounds of hundreds of rats throughout the winter.

The Snydertown residents say the garbage is thrown on top of boxes and paper and a match put to it. This is allowed to burn throughout the night without anyone to watch it. In addition to the danger from sparks, it is claimed, the neighboring people have to stand for an awful stench.

Mr. Derencin said this morning that he could take members of council or a representative of the health department to the dump and show pieces of meat from dead horses, and dogs that were not completely consumed by the fire. The residents dread to think of the conditions which will exist in the summer if this refuse is not cleaned up and entirely burned.

Mr. Derencin also said when a person stopped to look over the dump it could be seen to shake and quiver, caused by the running about in it of hundreds of rats. He said that the description was no exaggeration and that his boy had gone to the dump at times with a gun, killing as many as three rats with one shot.

Mr. Derencin said he would have protested such conditions a long time ago but he knew people in Connellsville would say his action was only jealousy because he had made a failure in operating the plant. He said as long as Councilman C. W. Utts ran the garbage business the plant was kept clean and there was no objection to it, nothing ever being burned outside. The reason the plant was burned down, he said, was because the present owner did not take the proper care of it.

Further, declared Mr. Derencin, the garbage is making the water of Connellsville run impure. "My cattle drink from that run," he said. "What kind of milk can I expect from my cows to give to my babies?"

He alone had lost more than 25 chickens during the winter which had been killed by the rats, was another declaration of Mr. Derencin. He said he was never bothered with them before but now they were undermining his place and depreciating the value of his property.

"We intend to appear before council and if no action is taken we will take the matter into our own hands," said Mr. Derencin. He said 25 other residents of the township felt the same way about the garbage question.

"If necessary to use force we will turn back the wagons hauling garbage from the city and tell them to burn it on their own streets instead of coming out to us with it."

## ENTER PLEA OF GUILTY

Leniency is Sought in Case of Rubbers of Manhattan Players.

After a jury had been selected to try Robert Patterson, and Clifton McCready on a charge of breaking and entering and larceny the defendants withdrew their pleas and entered pleas of guilty before Judge E. H. Ruppert yesterday. The case was prosecuted by Paul Hillis, manager of the Manhattan Players, a vaudeville troupe, who although testifying against the boys asked the court to extend them leniency because of their mothers.

The boys were charged with entering the dressing rooms of the Solon theatre and appropriating wearing apparel and stage jewelry to the value of \$600. Part of the stolen goods was recovered.

## MONDAY LAST DAY FOR COLLECTION OF REFUGEE CLOTHING

Inability to Secure Trucks Yesterday or Today Compels Deferring Calls at Homes That Have Reported.

It having been inconvenient to arrange for automobile trucks yesterday or today, with which to carry clothing collections from homes to the Red Cross headquarters, announcement has been made that Monday will be devoted to this work and will be the last day upon which automobiles will be used. It is urged, therefore, that all persons have their collections ready to be received when a call is made for them. The work will begin early Monday morning and continue all day if necessary.

It was intended to clear up yesterday and today the list of house numbers that have been turned in but failure to secure the trucks made this impossible. Many persons brought their collections in yesterday and others are doing so today, but there remains a large number of homes in the morning and the trucks are awaited. These and others that are sent in today will be given attention on Monday.

Yesterday two small boys brought a collection to headquarters and asked if there was anything they could do to help in the work. They were told they could go to residence numbers given them and bring in the collections that had been reported ready for delivery. They borrowed a small wagon and worked with great zeal and enthusiasm in addition to the store that had already been collected. Today other boys operating on the South side have brought in a number of contributions by the same means.

Persons who find it inconvenient to send or bring their packages, and who have not yet notified headquarters, or Mrs. John L. Gans, chairman, are asked to do so promptly in order that the truck can make the collection on Monday, reaching all homes in a given section of the city on a single trip to such section.

## STRUCK BY CAR

M. J. King is Hurt by Sidewalk by Machine Running Too Close.

Standing on the sidewalk in front of the Hooper & Long store, conversing with friends, Michael J. King, of Highland avenue, was struck by an automobile driven by Newell Clement of Uniontown last evening and hurled to the sidewalk, sustaining a broken collar bone and other injuries. The mishap resulted from the driver of the car running too close to the sidewalk. The driver of the car, Mr. King, it was said, the injured man was assisted to the office of a physician and then taken to his home. The car came from South Pittsburgh street. In making the turn the driver swung too far to the right. The spin was not excessive, it is said, but Mr. King did not have time to get out of the way.

## PRESBYTERIANS READY FOR NEW ERA DRIVE SUNDAY

Final Instruction to Teams Delivered at Dinner Last Evening.

### THE GOAL HERE IS \$15,000

Throughout Nation Aim to Raise \$25,000,000 for Beginning of the Reconstruction Period; Local Results Will be Announced Sunday Night.

Confident of success, their confidence in a measure born of the experience they gained as canvassers in several war drives in the city, 13 teams of six men each of the Presbyterian church will cover the city today and tomorrow in an effort to raise \$15,000 for church expenses and benevolences, in the New Era campaign, the amount representing an increase of 50 per cent over what was pledged for last year. For five minutes previous to the beginning of the canvass the men will engage in prayer service, in which all Presbyterians are asked to join. At the conclusion of the three hours of solicitation the teams will return to the church to calculate the figures. At the evening service will be made of the work accomplished by the team captains and members being asked to maintain silence as to any figures until they are officially reported in the evening.

Plans for the canvass were discussed at a meeting of the men last evening at the church, following lunch served by the ladies of the church. Talks were made by the pastor, Rev. J. L. Proudfoot, Attorney H. George May, F. M. Markell, J. A. Armstrong and T. J. Hooper and also by C. W. Downs, vice president of the church.

The only two sons of a family voluntarily enlisted in the Army. Shortly after their enlistment the father died. The only daughter was employed in a clerical position. One of the sons is still overseas and the other has been discharged and returned home. The daughter has been "laid off" owing to the condition of the times. The discharged soldier is unable to find employment. It is a case where some member of this family must find immediate employment and the Red Cross feels that cases of this kind are deserving of their best efforts and worthy of the assistance and cooperation of every employer of labor in the county.

The following are some of the trades represented by men seeking employment through the Red Cross:

Bakers, waiters, cooks, laborers, machinists, railroad brakemen, railroad firemen and clerks.

It is also the aim of the County Red Cross to enlist the services of other organizations, such as churches and lodges, in the carrying out of the program of this proposed bureau. It will be organized somewhat along the following lines:

1. All opportunities for workers will be registered and classified.
2. Such information as to positions available for returning soldiers and sailors will be maintained.
3. A record will be kept of all applications for positions.
4. Every possible assistance will be given to every applicant for work.
5. All applications will be treated with pains-taking, intelligent interest, in order that the best service will be given.
6. Thorough investigation will be made in order that an employer will know that he is giving employment in a deserving case.

## BUREAU FORMED FOR RETURNING SERVICE BOYS

County Red Cross Thus Seeking to Solve Unemployment Problem.

### COOPERATION IS URGED

Corporations, Firms, Individuals Having Positions Open Are Asked to Communicate With Executive Secretary; Churches and Lodges Can Help.

The question of employment for returning soldiers and sailors is a growing problem in this county, as well as other communities throughout the country. Many soldiers are returning home, and many are returning into this county where they are relatively unknown. The Fayette County chapter of the Red Cross is doing everything within its power to assist these men, but the problem is becoming more difficult of solution each day.

It has, therefore, been decided to create a Bureau for Returning Soldiers and Sailors in connection with the county chapter, and seek the assistance and cooperation of corporations, firms, partnerships and other employers of labor throughout the county, to the extent of furnishing a list of vacancies in their concerns, the kind of men wanted, necessary qualifications for positions, and other detailed information, and to give preference in the filling of such positions to the returned service men.

They will also be asked to create temporary positions where possible, in order to furnish such men temporary assistance. Then they will be asked to keep the Red Cross informed as all vacancies are filled and new ones created.

It is felt that all employers of labor in the county will be glad to lend their assistance in this undertaking and work with the Red Cross in caring for our boys, who sacrificed their former positions to serve their country. Those concerns in the county that have any positions open, or can create any, should immediately so inform W. E. Schenck, executive secretary, Fayette County chapter, Uniontown, and the county Red Cross organization, in turn, promises to fill all such positions with men who are worthy and deserving of a position, and in need of employment, after a thorough investigation of their case has been made.

Cases that come to the Red Cross for assistance are described indeed briefly, a fair example being the following:

The only two sons of a family voluntarily enlisted in the Army. Shortly after their enlistment the father died. The only daughter was employed in a clerical position. One of the sons is still overseas and the other has been discharged and returned home. The daughter has been "laid off" owing to the condition of the times. The discharged soldier is unable to find employment. It is a case where some member of this family must find immediate employment and the Red Cross feels that cases of this kind are deserving of their best efforts and worthy of the assistance and cooperation of every employer of labor in the county.

Testifying in his own behalf on the stand before Judge J. Q. Van Swearingen in Uniontown today, James Jackson, negro holdup man who attempted to shoot Councilman M. B. Pryce and Patrolman D. H. ## BOY BLACK HANDERS

Picture Shows How Meyerwald Children to Crime, They Say.

MEYERSDALE, March 22.—Charged with obtaining money by methods closely resembling the black hand, a number of schoolboys whose ages range from 12 to 16 years, were before Burgess Valentine Gross Wednesday. Residents of Meyersdale for some time have been receiving threatening letters demanding specific sums of money to be placed at certain points.

Gross bones and skulls and hearts pierced with daggers were some of the letter decorations used. The letters were signed "My Order of the Dirty Dozen."

The lads confessed when brought before the burgess, and when asked where they conceived their idea of lawlessness, they attributed them to the moving picture shows. The burgess paroled the boys with the understanding that they give up their wrongdoing and ordered them not to be on the streets after 8 o'clock in the evening.

## SPECIAL CONGRESS SESSION MIDDLE OF MAY, OF SENATE EARLIER, IS PARIS REPORT

### MUCH WORK AHEAD FOR WOMEN AT THE RED CROSS ROOMS

New Allotments Will Keep Sewers Busy Until June, Says Mrs. Reynolds, the Superintendent.

Mrs. Louise Reynolds, who has charge of the refugee and hospital garments department of the Red Cross here, announced this morning that with the new allotments that have been lately received the department has enough work to keep it busy until June. The women have not been turning out so well lately, thinking that there is no more need for them, but with these allotments it is necessary that there be a good attendance. The women are now working on convalescent suits for the use of the wounded Pennsylvania soldiers. These are so well made that it is hard to distinguish them from tailor made garments. An allotment of refugee garments is now almost completed.

An appeal has been sent to the chapter for children's long stockings and children's sweaters with sleeves but nothing has been done on this allotment on account of the lack of workers.

Nothing is being wasted. All the scraps that are left after the garments are completed are made into comforts for infants and placed in a layette which contains a complete baby outfit.

### COMPANY D GETS FUND

Money Raised by Firemen Put to Use Intended, Officer Writes.

In a letter received from Montgomery Dithworth, who is commanding the supply company of the 110th Infantry, with the rank of first lieutenant, he tells of having received the \$200 sent to France by the volunteer firemen for the purchase of a Christmas dinner for the Connellsville boys.

The letter, written in February, says the money had just been received, and the holidays were past, he and Major R. S. McKee took it and divided it between the men from Connellsville who were then with the 110th Medical Detachment and Company D. It amounted to about \$5 for each man. The letter said the boys were then framing up a letter of thanks which would be sent to the firemen for their gift.

### SPEAKING TOUR POSSIBLE

Wilson Contemplates Visiting States Whose Senators Are Opposed to the League of Nations; Russian Forces Ordered Mobilized by Leon Trotsky.

By Associated Press.

PARIS, Friday, March 21.—A special session of both houses of the American congress probably will be called to assemble about the middle of May, the date when President Wilson hopes to return to the United States.

It is possible that if the treaty of peace is sufficiently advanced to warrant such a course a special session of the Senate may be called even earlier to afford it opportunity to deal with this subject before being called upon to direct its attention to other important matters, chief of which will be financial affairs.

It is held to be unnecessary for President Wilson to be in Washington when the call for such a special session issued for this may be called from Paris in advance of his departure from France. Mr. Wilson, however, has reached no decision regarding the question and is reserving the shaping of his course of action until he has a more definite idea of the date of his return to America.

The President is also keeping in touch with the development in the United States toward a league of nations. If the situation appears to him to demand such action it is not unlikely that shortly after his return from Europe he will make an extended speaking tour presenting his views of the issue directly to the voters in the States whose senators are opposed to the ratification of the league plan.

### IRONING OUT ITALIAN DIFFICULTIES PLANNED

PARIS, Friday, March 21.—Hope was expressed tonight in peace conference circles that by the first of next week a plan would be presented which would surmount the difficulties in the way of completion of the peace-making work of the conference raised by threats of Italy to withhold approval of any peace treaty not definitely settling the Italian-Jugo-Slav controversy. President Wilson has the whole question before him and it is from him that the plan upon which hope of a satisfactory settlement is based is looked for.

### ALLIES MUST CHOOSE BETWEEN ITALY AND SLAVS

HALIFAX, Nova Scotia, March 22.—The Allies must choose between Italy and the Jugo-Slavs, General Guggisberg, military attaché of the Italian embassy at Washington, declared in an address before the Canadian club here last night.

"You in Canada have law," he said. "You trust it, because you made it. You have just, wise judges and policemen, yet you shut the doors of your houses. Italy also relies upon the judges of the league of nations; but first she wants the door of her homes shut. France feels likewise and asks the Allies to give her a strong frontier. A choice must be made between Italy and the Jugo-Slavs. As Italy has been loyal to her Allies in the common cause until the last so her Allies must be loyal to Italy. We rely on France and the United States, but especially upon our own dear England."

### MOBILIZATION OF RUSSIANS UP TO 40 ORDERED

PARIS, (Havas), March 22.—The Estonian-Lithuanian offensive against the Bolsheviks is menacing Petrograd so seriously that Leon Trotsky, the Bolshevik minister of war and marine, has ordered the general mobilization of all men up to the age of 40 according to a Zurich dispatch to the Matin.

## The NEW SEASON of FASHIONS ANNOUNCING OUR SPRING OPENING Monday, March Twenty-Four

Fashioned according to the developed ideas of the originators, taking all the originality of line, form, and color in the importations from Paris, adding the brilliant conceptions, innovations, duplications, and adaptations of the New York houses—such is the history of the fashions we are now ready to disclose for Spring 1919.

The ending of the war left Paris and New York short of some of the brilliant novelties of ante bellum days, but not of the brilliant artistry and skill of the creators of fashions.

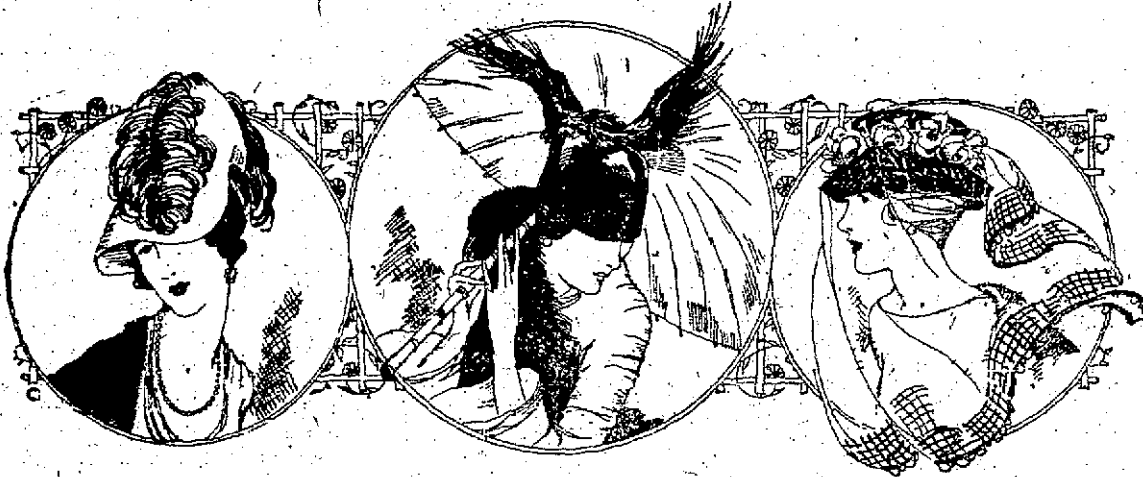

Ample proof of this will be given on every side during this Opening Exposition of the Fashions.

The season's figure silhouette will be slim and narrow—and the fashions accentuate and bring into popularity several style tendencies observed in Paris and New York recently—particularly in the suits and more tailored frocks.

The Opening displays of most carefully selected types is educational in its intent, as offering not merely a display of beautiful styles—though it does that in a royal way—but rather a series of types that will lead this season, each having its recognized followers and together, making a diversity that insures that individuality of dress.

All departments participate in the Exposition—to which you are invited.

PETEY DINK—Petey Must Be Expecting Trouble

By C. A. VOIGHT

The senior class of the South Connelville high school gave a very successful box social last evening in the school building, the proceeds to be used towards the school library. A delightful program was rendered and a very enjoyable time was had.

At a six o'clock dinner followed by a reception at their home in Brinker avenue, Latrobe, Sunday, March 16, Mr. and Mrs. Bernard Bigg announced the engagement of their daughter, Miss Ida Bigg, to Hyman Cohen of Latrobe. Covers at the dinner were laid for about 50 guests, while over 80 friends attended the reception. Many out of town guests were present. Miss Bigg was graduated from the Latrobe high school, a member of the class of 1916, and was a student at Pennsylvania College for Women. Her fiancé was recently discharged from the United States Army. Mr. and Mrs. Bigg and family resided in Connelville before moving to Latrobe.

The Ladies' Guild of the Trinity Reformed church held its regular monthly meeting last night at the home of Mrs. E. E. Henderson in Greenwood. Eight members and one visitor were present. Articles amounting to over \$8 were turned in. It was decided to hold a food sale on the Saturday afternoon and evening before Easter in O. S. Gettys store room in North Pittsburg street. The April meeting will be at the home of Mrs. James Deis in Prospect street.

Largely attended was the quarterly Ladies' Aid society of the First Baptist church held last evening at the home of Mrs. Samuel Goodwin at Trotter. Following the business meeting a social session was held and delicious refreshments were served by the hostess. Music by a talking machine was greatly enjoyed. The members turned in their dollars and quite a neat sum was realized. Plans for a five and ten cent cafeteria social to be held in the church early in April were discussed. Many good things will be on sale. The next regular meeting of the society will be held Friday evening, April 4, in the church with Mrs. E. N. Stahl hostess.

The Ladies' auxiliary to the Ancient Order of Hibernians will meet tomorrow afternoon at 2:30 o'clock in the Parochial school auditorium.

Announcement of the engagement of Miss Florence Joder, a well known nurse of Johnstown, to William Gardner of Rockwood, was given by a luncheon given by Mrs. Sidney Morgan at her home in Johnstown. The engagement will terminate in a wedding of the near future. Mr. Gardner and his bride will reside at Rockwood, where the former is in business.

Extensive arrangements are being made for the annual spring opening of the E. Dunn store to be held Monday. Every department of the big store will have on display a wonderful line of spring and summer fashions.

USE OF THE THIRD DEGREE IS CHARGE OF NEGRO GUNMAN

Continued from Page One.

James C. Tee, is prosecutor in one case. He charges James Jackson, James McDonald and Harry Coughenour with having held him up in McCormick avenue last February 17 for the purpose of robbing him. When the alleged assault was reported to the police Councilman Pryce was at the police station at the time and accompanied the officers to investigate the crime.

He testified that they encountered the trio about 50 feet from where the alleged assault occurred and that Patrolman Turner yelled ahead to the boys to stop that he wanted to talk with them. He said that the boys stopped and waited for the officer. Patrolman Turner, he said, searched McDonald for weapons and finding none turned to Jackson. While the officer was striking against the negro's pockets in searching for weapons, Councilman Pryce testified, Jackson stepped back about six or eight feet and jerked a revolver from his left coat pocket and opened fire upon Turner. The officer drew his gun about the same time, the witness continued, and fired five shots. One took effect in the negro's hip.

Cross examination of Councilman Pryce by Attorney Baer was grounded principally upon alleged third degree methods used by the officers in forcing a confession from the boys while they were in the Connelville police station. Councilman Pryce readily admitted that the boys had been questioned closely by himself and several officers to bring out their complicity in the holdup but denied the use of any unfair tactics and testified that all three were warned before the examination was commenced that anything they might say would be used against them.

Patrolman Turner occupied the witness stand for some time and told of the attempt made upon his life by Jackson and declared that he used his weapon in self defense.

## If You Are a Presbyterian

you will go to church tomorrow. Every Presbyterian will, if he possibly can. It is Victory Day. The church expects to win the greatest victory in all her history—to have the wealth of multitudes poured into her treasuries, not to be kept, but to be used in the reconstruction and redemption of the world. So Victory Day has also been designated as

## Go to Church Sunday

when the courts of God's house will be crowded with eager worshippers, whose faces will be lighted with the bright hope of the new day that is soon to dawn. You will be there, of course, to get in touch with the New Era and so keep step with the church in its onward march toward the realization of its high purpose. Then in your home, afterward, you will await the opportunity to give as God hath prospered you, to strengthen His church and to establish His kingdom in the earth. Do this, and you will be blessed

## And Get a Blessing

### PRESBYTERIANS READY FOR NEW ERA DRIVE SUNDAY

Continued from Page One.

Twice as much money will be used for the work during the reconstruction period as before the war, Rev. Prouditt declared, if the church hopes to maintain its place in affairs. Tomorrow will decide what the Presbyterian church is going to be for the next 25 years, he said, declaring that if it falls in the nation-wide movement to raise \$38,000,000 set as the goal, it will not recover for at least a quarter of a century.

The eyes of the world are on the Presbyterians, Rev. Prouditt said, this denomination being the first to attempt a big drive for reconstruction work. The Methodists are watching, he said, prepared to inaugurate their financial drive.

The war might have been avoided, in the opinion of Rev. Prouditt, if the government of the United States had invested a billion dollars in the interest of the church of Jesus Christ.

Attorney May felt confident in the ability of the local church to raise its share. If a man can give \$100 or \$200 for his church he is not a good giver in his own community, he said. Mr. Maxwell also felt sure the goal would be reached. With a membership of 650 he said there is no reason in the world why it should not.

Applause greeted a remark of Mr. Armstrong, during his talk, that while canvassing was distasteful to him, generally, he had no apologies to offer in going after money for the cause of the church. Success was predicted by Mr. Hooper.

Music for the occasion was provided by Miss Mary McConnell and Mrs. William F. Brickman, vocal solos, while John Davis led in the chorus singing.

Tomorrow morning the canvassers will attend church services in a body. They will remain at the church and lunch will be served by the ladies.

### DUQUESNE SUCCUMBS BEFORE STRONG HIGH SCHOOL FIVE, 56-20

Locals Hand Visitors Bad Beating; Lyon and Struble Run Up Big Scores.

Connellsville High handed the Duquesne University High team an awful wallop in the gym last night, defeating that team by a score of 56-20. The visitors never seemed dangerous and although the score rolled up was a large one, the contest sometimes lagged.

Struble was shooting in fine form, scoring 11 clean baskets. He is improving with every game and is showing increased speed. Lyon, who has been out of the past few games, was on the scene again and proved that his rest didn't hurt him a bit. With both Lyon and Struble going well and the remainder of Connellsville's well-drilled machine "hitting" regularly, nothing could stop the local aggregation.

In the last quarter all the second string men were run into the game. Lyon dropped in eight goals from the floor before he was lifted. The visitors scored seven baskets in the entire game.

The last home game will be next Friday when Latrobe appears here.

## INVEST NOW!

"There is a tide in the affairs of men, which, taken at its flood, leads on to fortune."

The tide of fortune today favors investors in the automobile industry. Never before was the outlook brighter. Never was the need of good automobiles so great as it is today.

Curtailed production during the last year has resulted in a serious shortage of automobiles the world over. The great foreign demand for American built cars is rapidly increasing. Large wage earnings during the war has created thousands of cash buyers of good cars among classes that never before felt they could afford to own automobiles. It will require years for the factories to catch up with demands.

The Templar Motor Corporation is admirably prepared to benefit by these conditions. The Templar car is in world-wide demand. It is the only strictly high class car of moderate size, weight and price. The Templar factories employ hundreds of workmen turning out Templar cars which are being shipped to all parts of the world.

All of Templar's properties—land, buildings, machinery and equipment are paid for and the factory is paying dividends from profits earned at the rate of 12% annually.

Templar Motors must enlarge its factories to fill orders and prepare for the future with largest profits to stockholders. For that purpose a limited amount of stock is now offered at \$15.00 a share. The price will advance in the very near future.

Now is the time for you to invest so as to benefit by the advancing price of Templar Motors stock and at the same time have your money earning more than the ordinary interest rate.

Write for full particulars before the price advances.

## WHY AMERICAN SOLDIERS MARRY FRENCH GIRLS.

When the American soldiers began  
to go to France the prediction was  
made, by some "wisdom" in such  
matters, that among them they  
would marry French girls. The  
prediction was regarded more or less  
seriously by some persons of mature  
years, but the young ladies would not  
even consider the possibility of its  
fulfillment. The fact remains, how-  
ever, that upwards of 100,000 Ameri-  
can boys have lost their hearts to an  
equal number of French maidens.  
Grievous as will be the heart burn-  
ings of some of our soldiers, it is  
not a matter of regret that they have  
found comfort in the arms of the  
French girls. They have found a  
solace in the arms of the French  
girls, and they know how to talk  
to our soldiers with their eyes and  
hands and shoulders better than the  
American girls can talk to them. In  
their own native language they speak  
a universal language—the language of  
love—and they know how to make  
themselves understood.

Not all this more or less super-  
stitious claim, the French women in  
France, and not merely a pointed up  
doll. They make wonderful wives and  
mothers. I was there long enough to  
see that. They make even better  
wives and mothers than they do sweet-  
hearts.

The French women are wonderful  
housekeepers, although, except among  
the upper classes, they do run too much  
furniture in their parlors and too much  
sauce in their kitchens, to suit the  
tastes of the American soldier. But how they do under-  
stand food conservation and economy.  
Miss Hoover could learn quite a  
lesson from them if he would care to  
study them.

And on top of all this femininity,  
they are fighters. They are not the  
soft women of a class, I believe in ex-  
cess, and the most consistently pa-  
tient. Their patience is so deep,  
however, a part of them, that they  
never think of saying anything about it.  
If you separated a Frenchwoman  
from her love for France, you would  
have to tear her apart from limb and  
skin her to pieces.

Particularly good all through the  
Frenchwoman, a subtle, but not  
obscurely, into everything she has done  
since she has been a Frenchwoman. You  
know something of what they have  
done since the summer of 1914 from  
the reports that have appeared in the  
newspapers, but their full history can  
never be written.

So why should our boys love them  
and marry them? Anyway, whether they  
should or should not, they are doing  
it. The only way to prevent them  
from keeping on marrying French  
women is to make an appeal to the  
government to bring them all home.

The French woman is a wonderful  
thing. If she loves him, she loves him  
because she cannot help herself. She  
does not pretend to love him with any  
thought of conversion, entering into  
the situation. She continues to love  
him after they are married, in spite of  
the fact that she may not have gained  
all the fine things that the American  
girl hopes for when she marries, a  
future time, plenty of clothes, a nice  
home, and all with little trouble to  
herself as possible. That is why the  
American boys have been so impressed  
with the French woman, and in account  
of her singularity and reliability.

It is not implied that the French  
girls are more irascible than our  
own charming daughters—that is an  
impossibility—but there are certain  
elements and natural qualities in the  
former which, under the peculiar cir-  
cumstances of their meeting, have  
made a strong appeal to our boys who  
have been on a very stern business in  
which artificial or superficial things  
have had no place. There is, there-  
fore, in the French girl, an observer's  
analysis of reasons why American  
soldiers are marrying French girls to  
which the less thoughtful among  
American girls can give careful con-  
sideration.

Would it not have been better had  
the report of the War Chest campaign  
shown only what was actually raised  
rather than to show an over subscrip-  
tion by adding a contribution that  
was promised to be made in certain  
contingencies?

The return of March 21, shows the  
spring to have been taken out of Ger-

### THE READING HABIT.

I feel sorry for the wight who can't  
sit down with a book and experience  
delight in his own intellect; who  
can't wrestle with the hard, storing  
knowledge in his head, but must play  
a game of cards or go yawning to bed.  
Let me have a stack of tomes piled  
about me; the floor, table, chairs, bed-  
room and parlor, and my heart will  
crave no more "What the wight world  
may be any blamed way it may  
please, and the night hours will not  
drag, but will shoot like bumble bees.  
I don't care to talk a stream, or to  
argue politics, or to listen for a week  
to the silver throated hick; I am tired  
of crochets and of checkers and of  
cheap poker; put me in the hole, so  
does bridge whist, more or less. All the  
games I know are boring, and increase  
my load of woe, when the tempter  
hows outdoors, and there is no place  
to go. Bring me then a stack of  
books, while my neighbor yawns and  
nods, and the evening to me looks like  
a present from the gods.

### HABITS.

There are habits good and habits  
bad.  
And habits merry and habits sad.  
As a general rule they are easy to  
make.  
And once we've made them they're  
hard to break.  
But every one of us makes a few.  
Because it's a natural thing to do.  
Some of us smoke, and some of us  
sneak.  
Some of us drink, and some of us  
care.  
But the world would brighten as  
we get the habit of smiling  
more.

### AN APPRECIATION

From the Navy League of the United States.

To The Editor, The Daily Courier,  
Connellsville, Pa.

From 1914 until the present week I  
have been a dollar-a-year man doing  
patriotic work for what I believed to be  
best for the country. Most of my work  
for the last three years has been with  
the Navy League.

I have just returned from a long  
speech-making trip, concerning the  
merchant marine and the need for a  
revival of our foreign trade and the  
importance of which should arise from  
paying available our own vessels for  
the carriage of our goods.

On my return here my attention was  
called to an editorial published by The  
Courier some six weeks ago referring  
to the Navy and to the work of the  
Navy League. All this is a preamble  
in order that you may know that I  
and a great many others who have  
worked for the Navy League earnestly,  
loyally and in the face of opposition  
are very grateful for your article.  
When one conscientiously believes that  
the motives of an organization are mis-  
understood and feels it a conscientious  
duty to work for that organization and  
yet, for the sake of the country, to  
pleasure in and that some trustful  
and conservative newspaper has given  
our point of view; has appreciated our  
work and voluntarily has given public  
credit. Such words are something more  
than sweet.

Gratefully yours,

Washington, D. C., W. H. STATTON.

INDIANAPOLIS TIMES:  
One of the most gripping plays ever presented before the local footlights.

## Truth Stranger Than Fiction

It is the actual story of a sweet young girl of a "Down East" County Seat, where the author gathered it as the pathetically tragic events of the last two acts developed, while he was sojourning in the county seat and its vicinity at work upon another rural play.

This little girl's heartrending story was so typical of the pathetic stories of thousands of other young American girls of the past year and of the immediate future—so potent in its bearing upon the most vital of the by-problems of this unprecedented war—its example so richly fruitful of larger, broader, moral vision—of awakening social charity—sounder sexual philosophy—more Christian and more commonsense legal and social rating of a despairing multitude of unwedded mothers and nameless babies; whose anguished souls cry out over the heads of pitiless humanity to high heaven for an equitable judgment, and find it there—and not this side of there—where the judgment of God prevails, and the bigoted judgment of mankind is reversed—its lesson so true and forceful—that the world should hear it—should see it—should feel it—and should profit by it. And may its outlook bring a measure of hope and courage to many shrinking, shamed and despairing girls and a shocking awakening to the popular bigotry which lifts its foolish, overvalued head above them.

For reasons obviously in consideration of the actual living characters involved in the story, the author has substituted fictitious surnames, but has used the actual Christian names and has respectfully altered the name of the "Down East" County Seat which was "shocked and shamed" and then born anew in an image nearer akin to The Judge of us all.

Endorsed by the leading women's clubs wherever presented and conceded by all to be the most startling and daring of modern plays. It carries a lesson.

The fate of the unwedded mother and her war baby—as far as this world goes—is in the hands of her sisters. What are they going to do with them?

#### THE SOISSON.

"A LITTLE MOTHER TO BE"—The place in the legal and social world to which the unwedded mother and her involuntary offspring are justly entitled has ever been the most harrowing problem of civilization. Today, the entire world stands confronted by it and listens, appalled, to its imperative demand, in the voices of millions of war babies and their unwedded mothers and their families, for a just and democratic solution. It must be met with frank attention and open minds. Men and women must meet, it together—must talk about it—must read about it—listen to its frank discussion, as brothers and sisters of the great outcast multitude of its pleading victims.

The literature, the press, the pulpit, the stage of the current day must absorb the shock of its frank and open discussion. This well founded conviction is held by all who have opened their eyes and their ears to the present state of this human problem. Lem B. Parker, the author of "A Little Mother to Be"—the most vital, heart to heart drama of the sacred home life of these fearful days of universal trial and awakening, have transplanted from a pure, christian home in a New England county seat, to the stage of America, the simple plain story of a little girl whose actual experience with this awful problem would write the heart of the most self-sacrificed

Bond and as absorbing as the latest war news. Actual battle scenes are shown, with the Y. M. C. A. and Salvation Army huts as well. All of the locations were chosen by an experienced man at the Goldwyn studios, later to be passed on by Mr. Beach. Use of the magnificent estate of Colonel Delamar at Glen Cove, L. I., was arranged for by the distinguished author and Thomas G. Patten, postmaster of the city of New York, the aviation field at Belmont park was requisitioned by Mr. Beach for important scenes in the picture. A selected comedy is also being shown.

#### THE SOISSON.

"THE LIGHT"—A William Fox drama, featuring Theda Bara, the beautiful screen star, is being shown today. The picture tells the story of the most wicked woman in Paris, whose beauty makes her the idol of men. While Paris is striving strenuously to avert a great disaster, and other women, slave and toil for the cause, this wanton woman lives a life of revelry. A sculptor sees her beauty and longs to have her pose for his statue of the Madonna. He feels there must be some grain of goodness behind such a beautiful face. He is right. The wicked woman finally gives up her wealth and ease at duty's call. As she is eloping with an Apache dancer she sees the sculptor, who has been blinded suddenly. This is the call. The wicked woman sees the light at last. She spirits away the sculptor, sacrificing her all and turning her back on frivolity, that she may nurse him and care for him. Thus she becomes a Madonna. Never has a picture offered Miss Bara greater opportunities. She more than lives up to her reputation as "the Saphir Bernhardt of the screen." "The Light" contains a stupendous theme, which has been staged and enacted with all the genius that William Fox, the producer, and Theda Bara have at their command. A selected comedy is also being shown.

#### A Definition.

"Pa," said Willie, "What is a genius?"  
"A genius, my son," said Mr. Know-it-all, "is a man who can't collect enough of what the world owes him to pay what he owes to the community in which he lives."

### A REAL ECONOMY

### STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

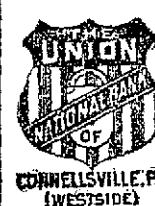

That's what thousands of stomach sufferers are doing now. Instead of taking tonics or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

"You think it best that he should?"

"Oh, I do not know; there is no best that I can see. Yet I would have more faith in being spared, disgrace if at the mercy of Sanchez, than his lieutenant. Both may be equally guilty, equally desperate, but they are not the same men. I may be wrong, for I judge as a woman, yet I would feel safer with Sanchez. The other merely desires with the passion of a brute. No appeal would reach him; he would laugh at tears and find pleasure in suffering. And yet you would have me appear friendly with Estada?"

"We cannot permit him to feel that either of us are enemies. He is the power aboard; our lives, everything are in his hands. If he means to be rid of Sanchez the man is doomed, for he will find a way to accomplish his purpose; murder means nothing to these men."

"Of course you are right," she acknowledged. "Our case is so desperate we must resort to any weapon. You believe it will serve the possibility of escape if I permit this monster to imagine that I have some interest in him?"

"To do so might delay the explosion," I replied gravely, "and just now any delay is welcome. I doubt if even Estada will resort to force on board; indeed force will be the very last card he will care to play in your case. You are English and all the practical seamens on board are from northern Europe—English and Scandinavian. These men are not pirates from choice—they are prisoners who have taken on to save their own lives. With his hulks and cutthroats' moods, he can compel them to do as he bids, but not too far. Once these fellows are in the water they could take the ship. An assault on you would be dangerous."

"It is these men you count on?"

"Yes; but for me to gain their confidence and leadership will require time. The slightest slip would mean failure and merciless punishment. At best the situation is absolutely desperate—but I see no other solution."

"And my service is desert—the sailing of a part to blind the eyes of Estada?"

"I sincerely believe your greater chance of security lies in this course. The fellow is a supreme egotist; opposition will anger him, while flattery will make him subservient. You have the wit and discretion to hold him within certain limits. It is a danger-

ous game. I admit, and a disagreeable one, but the case requires desperate remedies."

She lifted her eyes, searching my face through the dim light.

"Geoffrey Carlyle," she said at last, a tremor in the low voice, "there is no sacrifice I would not make to preserve my honor. I hate this man; I dread his touch; I shrink from contact with him as I would from a snake, but I am not going to refuse to do my part. If you say this is right and justified I will consent."

"I believe it is."

"And you will not lose faith in me?" she questioned earnestly. "It will not lower your belief in my womanhood?"

"Nothing could do that. Mistress Dorothy, I want you to realize the depth of my interest and respect. Your friendliness has meant much to me, and I would never want you to lower your ideals. But we must face this situation as it is. We possess but two weapons of defense—deceit or force. A resort to the latter is at present impossible. I cannot conceive that you are lowering yourself in any way by using the power you possess to escape violence."

"The power I possess?"

"You—beauty and wit. These are your weapons, and most effective ones. You can play with Estada and defeat him—temporarily, at least. I confess there is danger in such a game—he is a wild beast, and his evil nature may overcome his discretion. Take this pistol. Keep it hidden about your person, but use it only when all else fails. You retain faith in me?"

"Implicitly."

"And pledge yourself to your part, leaving me to attend to mine?"

Her two hands clasped my fingers, her eyes uplifted.

"Geoffrey Carlyle, I have always be-

lieved in you, and now, after the sacrifice you have made to serve me I can refuse you nothing you ask. I will endeavor to accomplish all you require of me. God knows how I hate the task; but—what I will do my best. Only—only," her voice sank—"if the best lays hands on me he—he pays the price. I could not do other-wise. Geoffrey Carlyle—I am a Fair-fax."

Satisfied with my mission and confident nothing more need be said, I arose to my feet.

"Then we can do nothing further until I learn the disposition of the crew," I said quietly. "Estada is not likely to resort to extreme measures at present. That is why I believe you are comparatively safe now—his own position of command is in the balance."

"I will see you again?"

"Perhaps not here; it is too dangerous; but I will find means to communicate with you. Good-by."

We stood with hands clasped in the darkness. I thought she was going to speak again, but the words failed to come. Then suddenly, silently the door opened a mere crack, letting in a gleam of yellow light from the main cabin, while the crouching figure of a man, like a gliding shadow slipped through the aperture, closing the door behind him as softly as he had opened it. I heard her catch her breath and felt her hands grasp my sleeve, but I never moved.

Who could he be? What might be the purpose of his entrance? But one answer occurred to me—Pedro Estada, driven by unbridled passions to attack the girl. I thrust her behind me, and took a step forward, with body poised for action. I was unarmed, but cared little for that in the swift desire to come to hand grips with the brute. I could hear him now, slowly and cautiously feeling his way toward us through the darkness.

#### CHAPTER XVII.

A Murder on Board.

To be certain of free space I extended one hand and my fingers came into unexpected contact with the back of a chair. Without moving my body I grasped this welcome weapon of defense and swung it above my head. Whoever the intruder creeping upon us might prove to be, he was certainly an enemy, actuated by some foul purpose, and no doubt armed. To strike him down as quickly and silently as possible was therefore the plain duty of the moment. I had no other thought.

The slowness with which he groped his way forward indicated unfamiliarity with the apartment, although his direct advance proclaimed some special purpose. Clearly he had no fear of attack. I could determine almost his exact position as his advancing foot felt cautiously along the deck. He came forward inch by inch. I measured the distance as indicated by faint, shuffling sounds.

I could not see but I knew. With all my force I struck! Blindly as it had been delivered the blow hit fair; there was a thud, an inarticulate groan, and the fall of a body upon the floor—beyond that nothing. I waited breathlessly listening for the slightest movement. I felt Dorothy touch my shoulder and caught the sound of her voice trembling at my ear.

"What is it? What did you do?"

"I struck him with a chair; he lies there on the deck. Wait where you are."

The Connelville high school basketball team completed a successful season in the Western Pennsylvania Interscholastic Athletic league when it took down second honors, winning eight games and losing only four. Although no member of the team was given a place on the all-W. P. I. A. league team, and no member got a place on the first team of Section 2, of which Connelville was a member, the local athletic officials and fans feel certain that at least two of Connelville's players were worthy of mention, are vigorously declaring an injustice was done when James McConnell and Moore were neglected in the selection.

In a recent selection of an all-star team from the different schools, made by Fred E. Alger of the Pittsburg Post, he left Connelville out until he got to the second team of Section 2 and there he placed Jimmie McConnell at center. Captain Moore, whose guarding game caused favorable comment in every school against which he appeared, was not even given honorable mention.

The records compiled at the close of the league season show that Connelville high had a team, on the floor practically its first season, which completed favorably with any in the W. P. I. A. L.

In the 12 games the locals scored a total of 410 points, as compared with 299 for their opponents, outscoring all competitors by 111 points. The average points per game for Connelville were 34-1/6, and for opponents 24-11/12.

In field goals Connelville outscored all opponents by 84. The locals made 151 successful shots from the floor and the opposing teams 97. Of the 151 baskets, local forwards shot 74, centers 63 and guards 14. Opposing forwards shot 50, centers 27 and guards 20.

Connelville's foul record was 108 out of 199 attempts. Opposing teams scored 105 out of 183 tries. Foul goals for Connelville were scored as follows: Lyon, 80 out of 144; Struble, 28 out of 51; Buttermore, 2 out of 2; James McConnell, 0 out of 1; Bufano, 0 out of 1. Opposing teams committed 10 more fouls than did the Connelville players.

In selecting his guards for the all-scholastic teams, Alger gave the position to man defensive man scoring the most points, instead of figuring that the work of a guard is to hold down the opponent's score. Reed, of Braddock, who was awarded a position as forward of the all-W. P. I. A. L. team and also on the first team of Section 2, was held to four lone baskets in two games against Connelville by Captain Moore. Geoffrey, of Johnstown, another forward awarded a position on the all-scholastic team, scored only seven baskets in two games against the locals. Gallahan dropped in seven goals in two games and Wylie secured six in the two contests against the Cokers.

On the other hand, Jimmie McConnell, Connelville's clever center, whisked in 15 goals in two games against the Braddock team which captured the championship of Section 2. Braddock, defeated only once in the season, was handed that pill by Connelville on the floor here. The score was 39-24, a final result which was not considered possible against Braddock.

In the personal record for goal shooting from the floor Jimmie McConnell leads the Connelville team. Playing in only 10 games, being out of the other two on account of illness, he shot 50 field goals from the floor. Struble, who got a slow start at the opening of the season but who later developed into a red headed whirlwind that could not be stopped by the closest of guarding, is second on the honor roll with 39 baskets to his credit. He also shot 26 out of 51 fouls, scoring a total of 104 points.

"Bill" Lyon, Struble's mate at forward, led the team for high score. He caged 32 field goals and in addition

shot 80 out of 144 attempts at fouls, making a total of 144 points altogether. Other records in field goals are: Buttermore, 11; Moore, 9; Robinson, 8; Joe McConnell, 3; Danner, 1.

#### Dunbar.

DUNBAR, March 21.—The recent favorable weather has stimulated garden making and some have already put out onions and early potatoes. The general spring clean-up is in progress and the council intends to insist upon its being done thoroughly.

Edison Strong of Franklin township, who has been overseas for the past year, has received his discharge and is home. He is visiting Dunbar friends frequently and rumor has it that wedding bells will ring about June. He found no one in France whose charms compared with American girls. He is glad to be back. He is not much in love with trench bash, but there is no denying that it agreed with him, for he has gained almost a hundred white away.

Miss Helen Carroll of Connelville, assistant county superintendent, was visiting at the J. S. Carroll home this week.

The increase in rates on the West Penn has reduced the Connelville shoppers more than 50 per cent. Formerly practically all cars were crowded and now rarely is one full. It is to be hoped adjustments affording relief may be effected.

Township Supervisor Charles V. Hardy is taking advantage of the favorable weather to put some of the roads in passing shape before the rush of work in the summer begins. He expects to improve the road from the borough line westward to its junction with the state road to be built the coming summer from Logan's crossing to Hair's hill. The proposed road is to be of brick. The surveying has been made and grades calculated. When settled weather comes the work will be begun. Other roads in the township will be dressed with slag.
